EXPERIENCE

Philips	Sep 2024 - Present
Software Engineer - I	Bengaluru, India (Hybrid)
- Helped deliver the IRT 2.0 to 3.0 release by building Kubernetes and Argo CD deployment infrastructure. Troubleshot HTTPS ingress upload issues and verified releases end to end. - Developed the IRT 3.0 UI for large language model (LLM) and retrieval-augmented generation (RAG) workflows, including media uploads, configurable analyses, job monitoring and result previews. - Developed a PostgreSQL-backed AI usage monitoring dashboard with usage and adoption reports, admin data management and audit history. - Delivered 10 automation keywords, resolved image-overlay and UI validation defects, and structured confidence-test data. Implemented triggers for validation and confidence tests. - Integrated model-selectable Azure OCR with output and bounding boxes compatible with the existing OCR engine. Connected results to value-matching workflows, then tested and deployed the integration. - Migrated icon, image and frame-speed analysis modules with unit and integration testing. Currently contributing to artefact detection module development and integration. - Established continuous delivery workflows and deployment-status monitoring across 5 locations. Supported AWS infrastructure, UI releases, server development and ongoing maintenance. - Rebuilt an internal customer complaint tool's UI and integrated backend workflows, including filters, recurring-issue handling and Docker support. - Contributed to 5 merged pull requests for a test-results viewer, correcting text-rendering errors and improving HTML hyperlink behavior. - Evaluated an image-processing framework and developed and validated a grayscale module as a proof of concept for future production integration.	

Philips	Aug 2023 - Aug 2024
Software Engineer Intern	Bengaluru, India
- Developed frontend and backend features for FetView ultrasound reporting using PHP, JavaScript, Java, Ember.js, HTML, CSS and SQL. - Supported Docker integration and functionality enhancements for ultrasound-related projects.	

EDUCATION

Vellore Institute of Technology	2019 - 2024
Integrated M.Tech in Computer Science and Engineering	Vellore, India

SKILLS

- Programming and web:** JavaScript, Python, Java, PHP, SQL, PostgreSQL, Ember.js, HTML, CSS.
- Cloud and releases:** AWS, Kubernetes, Argo CD, Docker, CI/CD, Git, GitHub, server maintenance.
- AI application integration:** LLM/RAG interfaces, Azure OCR, image analysis, AI usage monitoring.
- Software quality:** Test automation, unit testing, integration testing, UI and backend issue resolution.
